Dear drg. Diani Prisinda, MARS, SpKG

Dear Captain Snataka Pribadi

Kind greetings from the ICMM
General Secretariat in Brussels.

I am pleased to acknowledge with
thanks your mail providing the
manuscript entitled: *"Antibacterial
Potential Of Basil Essential Oils
(OCINUM SANCTUM) On
Enterococcus Faecalis ATCC 29 212"*.

I transmitted your manuscript, for decision, to the assessment of the Editorial Board of the *International Review of the Armed Forces Medical Services*.

May I ask to verify if the addresses are correct:

Brussels, 6th of February 2017

Dear colleague,

The Editorial Board wish to thank you for the interest in the International Committee of Military Medicine (ICMM) and the International Review of the Armed Forces Medical Services (IRAFMS).

I have the honor to inform you that the reading committee of the IRFAMS has received the manuscript entitled: *"Antibacterial Potential Of Basil Essential Oils (OCINUM SANCTUM) On Enterococcus Faecalis ATCC 29 212"*.

May I invite you to find the findings of the reading committee regarding the manuscript :

- The Editorial Board wish to thank the authors heartfelt for the submission of their manuscript for possible publication in the IRAFMS.
- This case report is interesting and the findings could be applied in daily practice. Nevertheless, the topic diverges too far from the main subjects treated by our journal. The topic is not specifically military medicine as it has been defined in the editorial policy of the review. For this reason this paper cannot be accepted for publication in IRAFMS. We suggest that you submit your paper to another review more adapted to this topic.

Thank you for your submission. We hope you will continue to support our review by submitting other papers in the future.

Sincerely yours,

Major General (Prof., ret.) Marc MORILLON (MD)
Chairman of the ICMM Scientific Council
Editor-in-Chief International Review of the Armed Forces Medical Services
