KATA PENGANTAR ................................................................................... iii
DAFTAR ISI ............................................................................................... vii

BAB I PENDAHULUAN
1.1 Latar Belakang ..................................................................................... 1
1.2 Masalah Penelitian ........................................................................... 7
1.3 Tujuan Penelitian ............................................................................ 10
1.4 Manfaat Penelitian .......................................................................... 11
  1.4.1 Akademis ..................................................................................... 11
  1.4.2 Praktis ......................................................................................... 11
1.5 Tinjauan Pustaka ............................................................................ 11
  1.5.1 Pecinta Alam Sebagai Gaya Hidup dan Identitas ......................... 11
  1.5.2 Konsumsi dan Faktor yang Memengaruhi .................................. 15
1.6 Kerangka Pemikiran ....................................................................... 20
1.7 Metode Penelitian .......................................................................... 24
  1.7.1 Unit Analisis .............................................................................. 25
  1.7.2 Kriteria Informan ........................................................................ 25
  1.7.3 Lokasi Penelitian ....................................................................... 27
1.7.4 Teknik Pengumpulan Data .......................................................... 27
  1.7.4.1 Observasi ................................................................................ 27
  1.7.4.2 Wawancara .......................................................................... 28
  1.7.4.3 Studi Literatur ........................................................................ 28

BAB II GAMBARAN UMUM PECINTA ALAM
2.1 Sejarah Pecinta Alam .................................................................... 29
2.2 Perkembangan Kebutuhan dan Toko Sarana Petualangan di Indonesia .... 33
2.3 Sejarah Singkat Toko Exploring ..................................................... 37
2.4 Merek-merek Produk Outdoor Luar Negeri .................................... 40
  2.4.1 Mammut ..................................................................................... 40
  2.4.2 Deuter ......................................................................................... 42
BAB III KOMUNITAS EXPLORING

3.1 Pengantar ............................................................................................................. 57
3.2 Komunitas Expoloring .......................................................................................... 57
3.3 Konsumsi Produk *Outdoor* oleh Anggota Komunitas ............................................. 62

BAB IV KONSUMSI PRODUK OUTDOOR

4.1 Jenis Produk Konsumsi ......................................................................................... 109
   4.1.1 Jaket .............................................................................................................. 109
   4.1.2 Baju dan Kemeja ............................................................................................ 110
   4.1.3 Celana ........................................................................................................... 112
   4.1.4 Sepatu .......................................................................................................... 113
   4.1.5 Tas ............................................................................................................... 114
4.2 Pemilihan Merek dan Faktor yang Memengaruhinya .............................................. 115
   4.2.1 Iklan ............................................................................................................. 115
   4.2.2 Internet ......................................................................................................... 117
   4.2.3 Obrolan dari Mulut ke Mulut ....................................................................... 120
   4.2.4 Kondisi Ekonomi .......................................................................................... 121

BAB V SIMPULAN DAN SARAN

5.1 Simpulan ............................................................................................................... 125
5.2 Saran ..................................................................................................................... 126
